

MAZDA CX-30

ARTFUL DESIGN

A bold new era has arrived. Born from our obsession to create beautiful vehicles. Expressed through our design language called Kodo: "Soul of Motion." Capturing movement, even at a standstill. Simplified essential characteristics that embrace the Japanese philosophy of "less is more." This compelling evolution in our design aesthetic pursues beauty through subtraction and purity. Reflections of light across its surface create more complex and intriguing shapes.

Created by the hands of master artisans, the sculptural piece conveys energy by eliminating all that is unnecessary, leaving only what is essential - becoming the inspiration for its final design stage: The All-New Mazda CX-30.

LIGHT BECOMES ART

For the designers at Mazda, achieving beauty is a rigorous practice in less is more. The Mazda CX-30 is no exception. The sweeping S-curve reflects an interplay of light and shadow, constantly moving and reflecting the world around you and creating a dynamic sense of energy. Subtly catching more light—and attention—the triangular motif pattern of the signature sculpted grille provides optimum airflow for improved aerodynamics.

ROOM FOR ANY JOURNEY

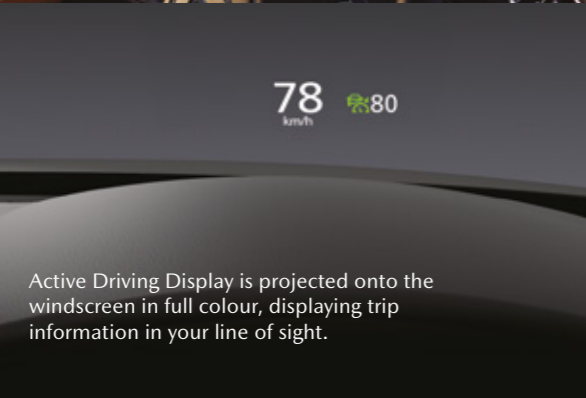

The Mazda CX-30 is the crossover designed to ease into small parking spaces and take you to wide-open spaces. With a generous cargo area and low platform, loading your things is easy.

The next generation Mazda Connect system adopts an 8.8-inch widescreen display.

With Apple CarPlay® and Android Auto®, you can easily access your compatible smartphone's contacts, music and more at the touch of a button.

Active Driving Display is projected onto the windscreen in full colour, displaying trip information in your line of sight.

CONNECTING CAR AND DRIVER

Your inspiration. Your space. Your command station. This is the driver-centric cabin within the Mazda CX-30, where every control is situated within your reach, so you can stay focused on the road ahead. Every consideration has been made so the Mazda CX-30 feels as if it were built just for you. This is the human-centric design philosophy known as Jinba Ittai—horse and rider as one. You feel as though your Mazda is an extension of your body.

In everything we do, we aspire to make your driving experience as intuitive as possible. Creating a oneness between you and your vehicle. Seamless connections that help you engage with the moment. Which is why we engineer to a feeling, not a specification. To leave you feeling energised. Rejuvenated. You, at one with your Mazda.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-Ittai', the sense of car and driver as one, has created a driving experience that's truly next generation. The newly developed G-Vectoring Control Plus (GVC Plus) offers unprecedented levels of confidence-inspiring controllability, while Skyactiv engines deliver exhilarating performance.

SKYACTIV-VEHICLE ARCHITECTURE

From the time we learn to walk, we learn to control our centre of gravity – and thus our balance – entirely without conscious thought. It becomes as natural as breathing. And it is the inspiration for Mazda's Skyactiv-Vehicle Architecture, aimed at enabling you to fully maintain your balance even inside the vehicle.

With human characteristics as the overriding design directive for the seats, body and chassis as a whole, Skyactiv-Vehicle Architecture realizes ride comfort, handling, stability and vehicle motion that perfectly matches human sensibilities and always feel familiar and natural to driver and passengers alike.

SKYACTIV TECHNOLOGY

With our revolutionary Skyactiv technologies, redesigned from scratch to provide breakthrough performance, Mazda has consistently aimed to provide the joy of 'Jinba-Ittai' driving.

SKYACTIV-G

The high-efficiency petrol engine delivers crisp response and great torque for lively performance both in city and on highways driving.

SKYACTIV-BODY

Light, rigid and robust body that ensures safe and joyful driving.

SKYACTIV-DRIVE

Ideal transmission designed for smooth driving and efficiency.

SKYACTIV-CHASSIS

Lightweight chassis that delivers driving pleasure and comfort.

THE EVOLUTION OF SAFETY

True peace of mind is at the forefront of the new Mazda CX-30. A higher concentration of ultra-high tensile steel reinforces the chassis, while a newly developed knee airbag for the driver's seat comes as standard equipment. Paired with the latest in advance safety technology - i-Activsense, the new Mazda CX-30 takes safety to another level.

i-ACTIVSENSE*

Adaptive Front-lighting System (AFS)

As you turn in a corner, the headlights pivot in the direction of your turn and improve visibility.

High Beam Control (HBC)

HBC helps the driver see better at night by maximizing opportunities to use the high beams.

Front Cross Traffic Alert (FCTA)

The FCTA detects vehicles approaching from the blind spots on the front left and right sides of the vehicle when the vehicle starts to drive at an intersection.

Smart Brake Support (SBS) Front & Rear

SBS aims to help the driver avoid or reduce the severity of frontal collisions (between 15 -145km/h), by automatically applying the brakes if there is a danger of collision.

Mazda Radar Cruise Control (MRCC)

MRCC maintains a set speed and minimum following distance from the car in front. If the car you are following reduces speed, your vehicle will automatically slow down as needed.

Adaptive LED Headlights (ALH)

ALH increases visibility at night to help drivers stay vigilant by combining 3 technologies : Glare-free High Beam, Wide-range Low Beams & Highway Mode.

Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

By scanning blind spots behind your vehicle, sensors detect unseen vehicles to alert you during lane change or reversing.

Lane Departure Warning System (LDWS) Lane-Keep Assist System (LAS)

LDWS monitors road markings and alerts you if you are straying from your lane. If no action is taken, LAS will perform minor steering corrections to re-center the vehicle in its lane.

Driver Attention Alert (DAA) with Driver Monitoring

DAA detects driver fatigue and decreased attentiveness and encourages the driver to take a rest (activates above 65 km/h). Driver Monitoring detects changes in the driver's facial features using a camera, and encourages the driver to take a rest (activates above 5 km/h).

Cruising & Traffic Support (CTS)

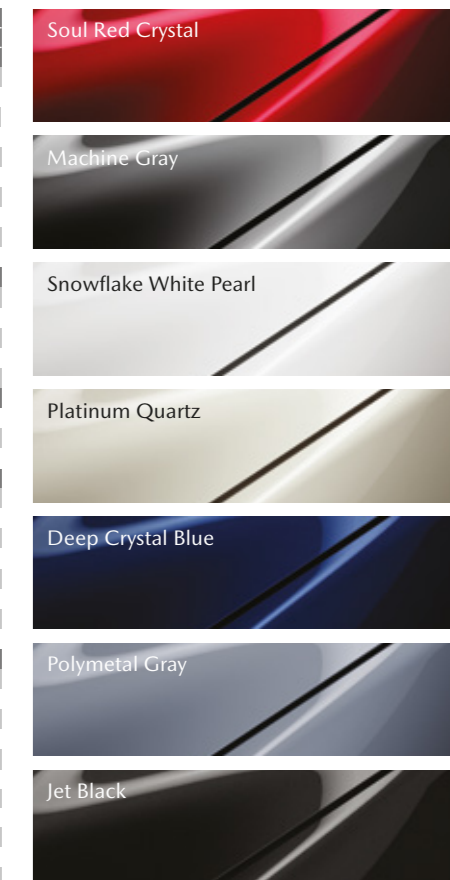

CTS assists to maintain a constant distance between your vehicle and a vehicle ahead at a preset vehicle speed without you having to use the accelerator or brake pedal. It also assists the driver to keep steer the vehicle within the lane lines.

MAZDA CX-30 TECHNICAL SPECIFICATIONS

Variant	2.0	2.0 HIGH	2.0 HIGH+	2.0 HIGH+ PREMIUM
Engine Type	SKYACTIV®-G 2.0L			
Powertrain				
Type	DOHC 16-Valve 4 Cylinder			
Displacement	1,998			
Maximum Power	162/6,000			
Maximum Torque	213/4,000			
Compression Ratio	13.0 : 1			
Drivetrain	SKYACTIV® DRIVE 6-Speed Automatic with Manual Shift Mode			
Fuel Type	Petrol			
Recommended Fuel	Min. Ron95			
Fuel System	Direct Injection			
Fuel Tank Capacity	51			
Chassis				
Steering Type	Electronic Power Assisted Steering (EPAS)			
Parking Brake	Electronic Parking Brake			
Suspension Type	MacPherson Struts/Torsion Beam			
Brake Type	Ventilated Disc/Solid Disc			
Tyre Size	215/65R16		215/55R18	
Dimensions				
Overall Length x Width x Height (mm)	4,395 x 1,795 x 1,540			
Wheelbase (mm)	2,655			
Curb Weight (kg)	1,436			
Exterior				
LED Front Headlights	•		with Signature Illumination	
Auto Front Headlights On/Off Function	•		•	
Auto Front Headlights Leveling	•		•
