

MAZDA CX-8

THE STREAMLINED VERSATILE SUV

Mazda's stunning KODO Design language is at the heart of every Mazda SUV. Concentrating on proportions, form and fine details, the long flowing lines create a strong, mature and dignified road presence. The three-row SUV that opens up inspiring new possibilities for people with active lifestyles, now with an all-new front grille that gives the Mazda CX-8 an elegant and commanding stance on the road.

6-Seater with 2nd Row Console

6-Seater with Captain Seats

7-Seater Configuration

THREE ROWS OF LUXURY

The New Mazda CX-8 offers 3 variants of seat configurations that cater to your needs. From front row to back, you will discover quality finishes, premium materials and the luxury that Mazda SUVs have become known for.

Mazda Connect 8-inch TFT LCD multi-information touchscreen display.

LUXURY & TECHNOLOGY COME TOGETHER

Sit back and relax in the perfect blend of high-quality finishes and intuitive connectivity. Take control in the thoughtfully designed cockpit that wraps snugly around the driver, with all major controls laid out in perfect symmetry.

The Mazda CX-8 brings the latest connectivity and infotainment to everyone on board. Mazda's advanced MAZDA CONNECT system allows you to safely access your compatible smartphone's contact, social media and music. The exceptional audio sound system, is integrated seamlessly throughout the cabin – providing clear tunes from the front row to the third.

The three-zone climate control enables driver and passenger to set their own temperature. The rear rows feature their own automatic system, meaning everyone is comfortable.

Active Driving Display is projected onto the windscreen in full colour, displaying trip information in your line of sight.

With Apple CarPlay® and Android Auto™, you can easily access your compatible smartphone's contacts, music and more at the touch of a button.

Hands free power tailgate.

SKYACTIV-VEHICLE ARCHITECTURE

With our revolutionary Skyactiv technologies, redesigned from scratch to provide breakthrough performance, Mazda has consistently aimed to provide the joy of 'Jinba-Ittai' driving.

Now we have developed our next-generation Skyactiv-Vehicle Architecture that focuses on the human-centered design philosophy. The new vehicle architecture coupled with award winning powertrains provide effortless responsive driving that is in perfect harmony with the driver's intention, creating the ultimate 'Jinba-Ittai' driving feel.

SKYACTIV TECHNOLOGY

SKYACTIV-G / SKYACTIV-D
The high-efficiency petrol & diesel engine delivers crisp response and great torque for lively performance both in city and on highways driving.

SKYACTIV-BODY
Light, rigid and robust body that ensures safe and joyful driving.

SKYACTIV-DRIVE
Ideal transmission designed for smooth driving and efficiency.

SKYACTIV-CHASSIS
Lightweight chassis that delivers driving pleasure and comfort.

READY FOR ANYTHING

i-ACTIV AWD

The pioneering i-Activ AWD* All-Wheel Drive system helps you drive confidently in all weather conditions. This innovative technology uses sophisticated real-time vehicle dynamics modeling to help predict traction loss and send torque to the tyres that need it the most, delivering an unparalleled connection to the road.

When your destination takes you off the beaten path, Off-road Traction Assist* helps optimize torque distribution and traction control to help you traverse uneven terrain. So you can keep on exploring.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-Ittai', the sense of car and driver as one, has created a driving experience that's truly next generation. The newly developed G-Vectoring Control Plus (GVC Plus) offers unprecedented levels of confidence-inspiring controllability, while Skyactiv engines deliver exhilarating performance.

SKYACTIV-G 2.5L TURBO

The SKYACTIV-G turbo petrol engine delivers powerful torque at low to mid-range speeds, linear acceleration response and an exhilarating powerful drive.

SKYACTIV-D 2.2L

A built-in turbocharger delivers high torque and response at low speeds, high power at high speeds so that you can sit back and focus on the pure fun of driving.

TURBO PETROL ENGINE

MAXIMUM TORQUE:

420Nm / 2,000rpm

FUEL EFFICIENCY:

8.7L / 100km*

DIESEL ENGINE

MAXIMUM TORQUE:

450Nm / 2,000rpm

FUEL EFFICIENCY:

5.7L / 100km**

* Only available on 2.5T High Plus AWD.

* Based on 2.5L Turbo petrol engine. Fuel efficiency results are combined fuel test cycle for AWD. ** Based on 2.2L clean diesel variants. Fuel efficiency results are based on a combined fuel test cycle (Urban & Extra Urban) on the 2.2L 2WD. Test Method: UN Regulation 101. Origin: United Nations.

PEACE OF MIND BUILT-IN

The new Mazda CX-8 puts safety at its heart with every safety innovation Mazda has to offer. Mazda CX-8 features the full suite of Mazda's i-Activsense advanced safety technologies, which are designed to help you recognize potential hazards, avoid collisions and minimise the severity of accidents should they become unavoidable.

i-ACTIVSENSE*

Adaptive Front-lighting System (AFS)

As you turn in a corner, the headlights pivot in the direction of your turn and improve visibility.

Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

By scanning blind spots behind your vehicle, sensors detect unseen vehicles to alert you during lane change or reversing.

Lane-Keep Assist System (LAS)

LAS adds to the LDWS by performing minor steering corrections to re-center the vehicle in its lane upon sensing an unintentional lane departure.

Smart Brake Support (SBS) Front & Rear

SBS aims to help the driver avoid or reduce the severity of frontal collisions (between 15 - 145 km/h), by automatically applying the brakes if there is a danger of collision.

High Beam Control (HBC)

HBC helps the driver see better at night by maximizing opportunities to use the high beams.

Lane Departure Warning System (LDWS)

LDWS monitors road markings and alerts you if you are straying from your lane when travelling over 65km/h.

Smart City Brake Support (SCBS) Front & Rear

SCBS automatically applies the brakes if it detects there is a danger of collision at forward speed of 4 - 80 km/h and reverse speed of 2 - 8 km/h.

Mazda Radar Cruise Control (MRCC)

MRCC maintains a set speed and minimum following distance from the car in front. If the car you are following reduces speed, your vehicle will automatically slow down as needed.

*Available on selected variants only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.
