

MAZDA CX-9

DISTINCTION IGNITED

The new Mazda CX-9 Ignite Edition is the ultimate blend of stunning sophistication and family SUV. This latest version of Mazda CX-9 presents an elegant figure on the road with the superb styling of 'KODO-Soul of Motion' design. The spacious interior is finished with quality craftsmanship that is evident in every detail. Reimagined from the ground up, it delivers unrivalled efficiency with impressive performance never before felt in a family SUV.

Confident front grille draws attention from every angle.

Strong and stable lower body presents an assured stance on the road.

DISTINCTION IN EVERY DRIVE

The Mazda CX-9 is a sophisticated three-row SUV that invigorates every journey. With its extended hood, elegant profile and a bold new grille, the CX-9 commands your attention. The new Ignite Edition adds stunning exterior accents such as a gloss black front grille, black side mirrors and black metallic 20-inch alloy wheels. With its exquisite attention to detail, the Mazda CX-9 elevates your drive every time you get behind the wheel.

DISTINCTION IN SPACE AND FUNCTIONS

Mazda CX-9 is a striking example of unprecedented comfort, technology and spaciousness. Every element of the interior space features exceptional design, superb craftsmanship and effortlessly accommodates the daily demands of the modern family with a versatile cabin that adapts to all seating and luggage requirements.

Mazda Connect 9-inch TFT LCD multi-information touchscreen display.

With Apple CarPlay® and Android™ Auto, you can easily access your compatible smartphone's contacts, music and more at the touch of a button.

The 12-Speaker Bose® Audio System has been strategically placed around the spacious cabin to ensure you enjoy studio quality audio from any seat.

Active Driving Display is projected onto the windscreen in full colour, displaying trip information in your line of sight.

7 luxurious and comfortable seats across three rows with multiple configurations ensure everyone on board is travelling in style.

SKYACTIV TECHNOLOGY

When Driving Matters, excellent fuel efficiency should never come at the cost of performance. So, of course, our driving-obsessed engineers found a way to enhance both. It is called SKYACTIV TECHNOLOGY.

Every aspect of the vehicle is engineered to maximize driving dynamics and efficiency: from body construction and engine technology, to the chassis and transmission. Without compromising performance.

SKYACTIV TECHNOLOGY is just one of the ways Mazda makes driving better.

SKYACTIV-G
The turbocharged petrol engine delivers crisp response and great torque.

SKYACTIV-BODY
Light, rigid and robust body that ensures safe and joyful driving.

SKYACTIV-DRIVE
Ideal transmission designed for smooth driving and efficiency.

SKYACTIV-CHASSIS
Lightweight chassis that delivers driving pleasure and comfort.

DISTINCTION IN DYNAMICS

The strict adherence to the philosophy of 'Jinba-Ittai', the sense of car and driver as one, has created a driving experience that's truly next generation. The newly developed G-Vectoring Control Plus (GVC Plus) offers confidence-inspiring controllability, while the Skyactiv-G 2.5L Turbo engine deliver exhilarating performance.

DISTINCTION IN SAFETY

You and your passengers’ safety is always a priority. Mazda CX-9 comes equipped with a suite of i-Activsense advanced safety technologies as standard, assisting the driver to avoid potential hazards. Along with preventative features, crash-severity-reduction technology is activated in the event of unavoidable impact.

i-ACTIVSENSE^{*}

Adaptive LED Headlights (ALH)

ALH increases visibility at night to help drivers stay vigilant by combining 3 technologies : Glare-free High Beam, Wide-range Low Beams and Highway Mode.

Driver Attention Alert (DAA)

The system activates at speeds above 65 km/h and begins to “learn” the driver’s habits, then alerts the driver before fatigue becomes a factor.

[^] Available on selected models only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.

Blind Spot Monitoring (BSM)
Rear Cross Traffic Alert (RCTA)

By scanning blind spots behind your vehicle, sensors detect unseen vehicles to alert you during lane change or reversing.

Smart City Brake Support (SCBS)
Front & Rear

SCBS automatically applies the brakes if it detects there is a danger of collision at forward speed of 4 – 80 km/h and reverse speed of 2 – 8 km/h.

Lane Departure Warning System (LDWS)

LDWS monitors road markings and alerts you if you are straying from your lane when travelling over 65km/h.

Smart Brake Support (SBS)
Front & Rear

SBS aims to help the driver avoid or reduce the severity of frontal collisions (between 15 – 145 km/h), by automatically applying the brakes if there is a danger of collision.

Lane-Keep Assist System (LAS)

LAS adds to the LDWS by performing minor steering corrections to re-center the vehicle in its lane upon sensing an unintentional lane departure.

Mazda Radar Cruise Control (MRCC)

MRCC maintains a set speed and minimum following distance from the car in front. If the car you are following reduces speed, your vehicle will automatically slow down as needed.

MAZDA CX-9 TECHNICAL SPECIFICATIONS

Variant		2.5L 2WD	2.5L AWD
Engine Type		SKYACTIV®-G 2.5L Turbo	
Powertrain			
Type		DOHC 16-Valve 4 Cylinder	
Displacement	cc	2,488	
Maximum Power	Hp / rpm	228/5,000	
Maximum Torque	Nm / rpm	420/2,000	
Compression Ratio		10.5 : 1	
Transmission		SKYACTIV® DRIVE 6-Speed Automatic with Manual Shift Mode
